

More Ways to Make Six

Here are some more ways to make 6.

Total of Six

These students made 6 by using two number cards.

Six Crayons in All

These students made 6 with red and blue crayons.

1 blue and 5 red

2 blue and 4 red

Can you think of another way to make 6?

Note to Teacher: *How Many Do You Have?*, Session 4.6. Use these pages to help students see that there are certain combinations that make a number, no matter which material they are using or what game they are playing. Encourage students to find combinations that appear more than once.
